EXP 14	Organization and Internship Reports

Aim:

To view the saved records in the All Organizations and All Internships reports.

Theory:

List reports display the records of a form. The columns are listed in the report definition.

Procedure:

1. Open Application IDE > All Organizations and list Organization Name, Type, City and Mentor Contact Email.
2. Open All Internships and list all Internship fields.
3. Save and open both reports in the live application.

Program (report columns):

```
list All_Organizations
{
    displayName = "All Organizations"
    show all rows from Organization
    (
        Organization_Name as "Organization Name"
        Type
        City
        Mentor_Contact_Email as "Mentor Contact Email"
    )
}

list All_Internships
{
    displayName = "All Internships"
    show all rows from Internship
    (
        Register_Number as "Register Number"
        Student_Name as "Student Name"
        Year
        Organization
        Domain
        Mode
        Start_Date as "Start Date"
        End_Date as "End Date"
        Duration_in_Weeks as "Duration in Weeks"
        Stipend_per_Month as "Stipend per Month"
        Offer_Letter as "Offer Letter"
        Completion_Certificate as "Completion Certificate"
        Status
    )
}
```

Output:

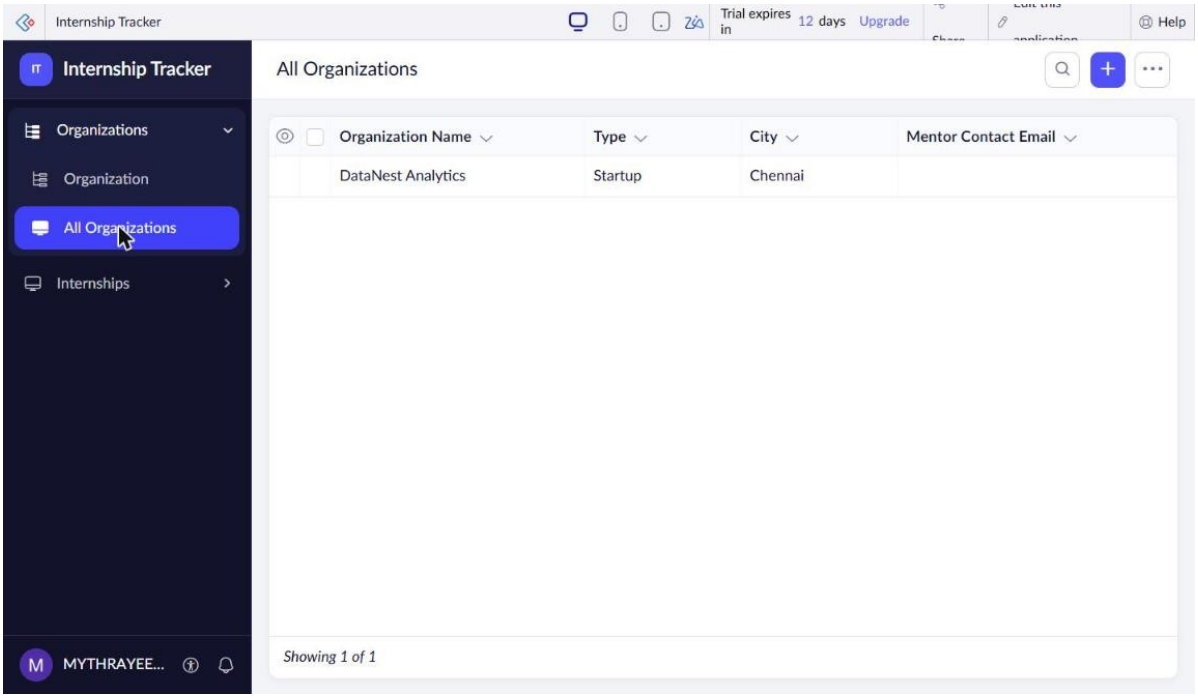

Fig. 14.1: All Organizations report

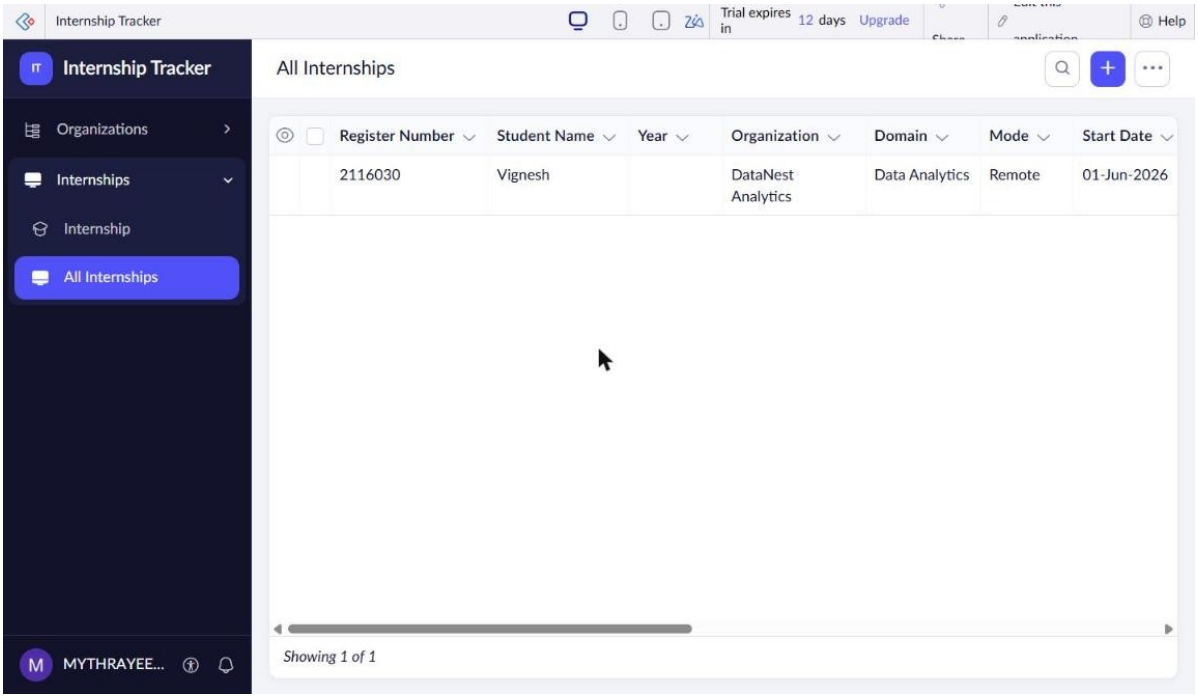

Fig. 14.2: All Internships report

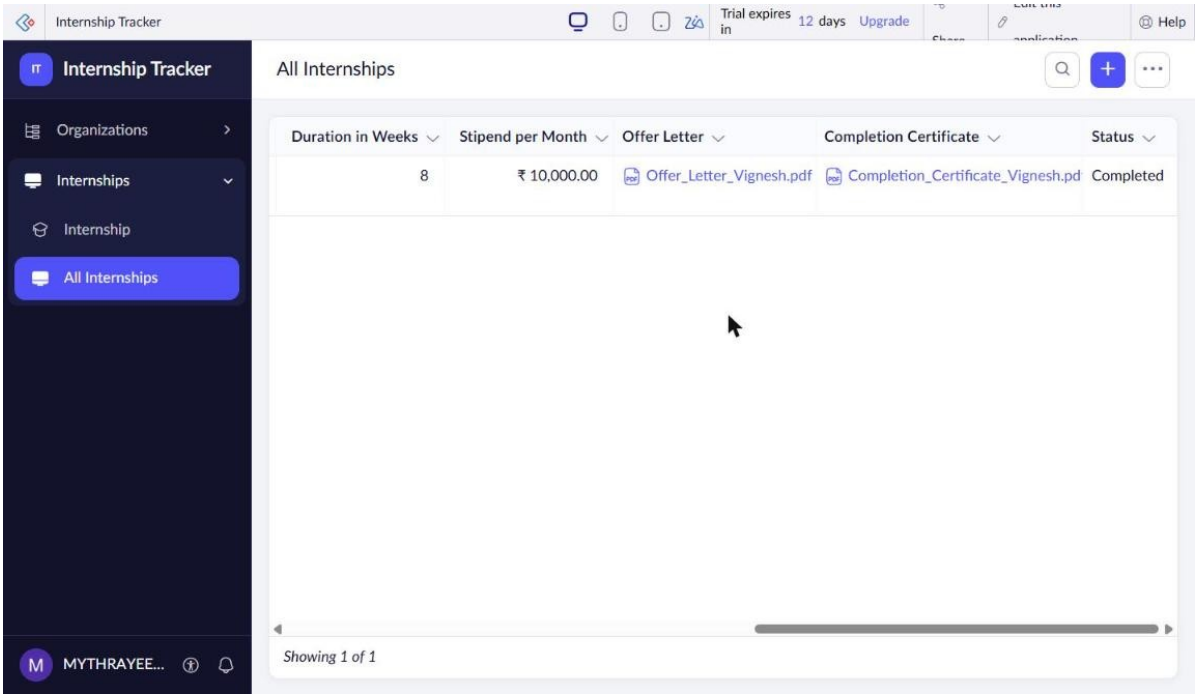

Fig. 14.3: Duration, stipend, documents and status

Result:

Both reports display the saved organization and internship records.
