EXP 15	Testing of the Internship Tracker

Aim:

To verify all the expected outputs of the Internship Tracker application.

Theory:

All workflows of the Internship form are listed below and the expected outputs are compared with the actual outputs.

Procedure:

1. Open Workflow > Form workflows and check the three workflows of the Internship form.
2. Run the test cases in the live application.
3. Compare the results with the expected outputs.

Output:

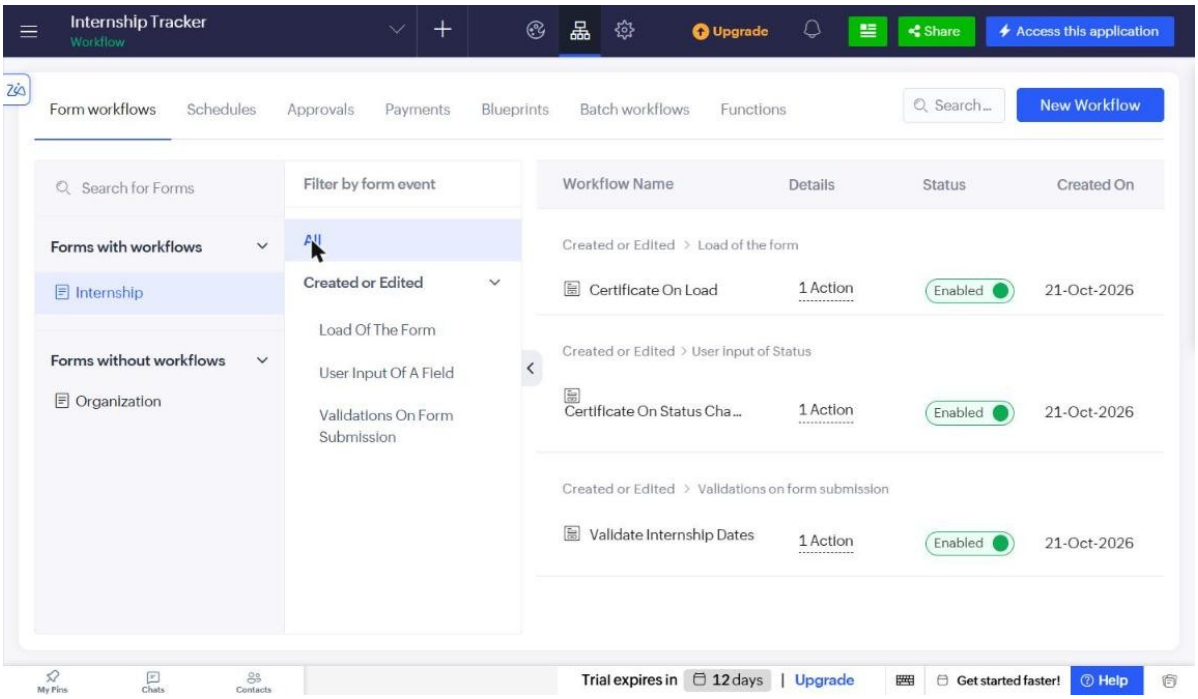

Fig. 15.1: Workflows of the Internship form

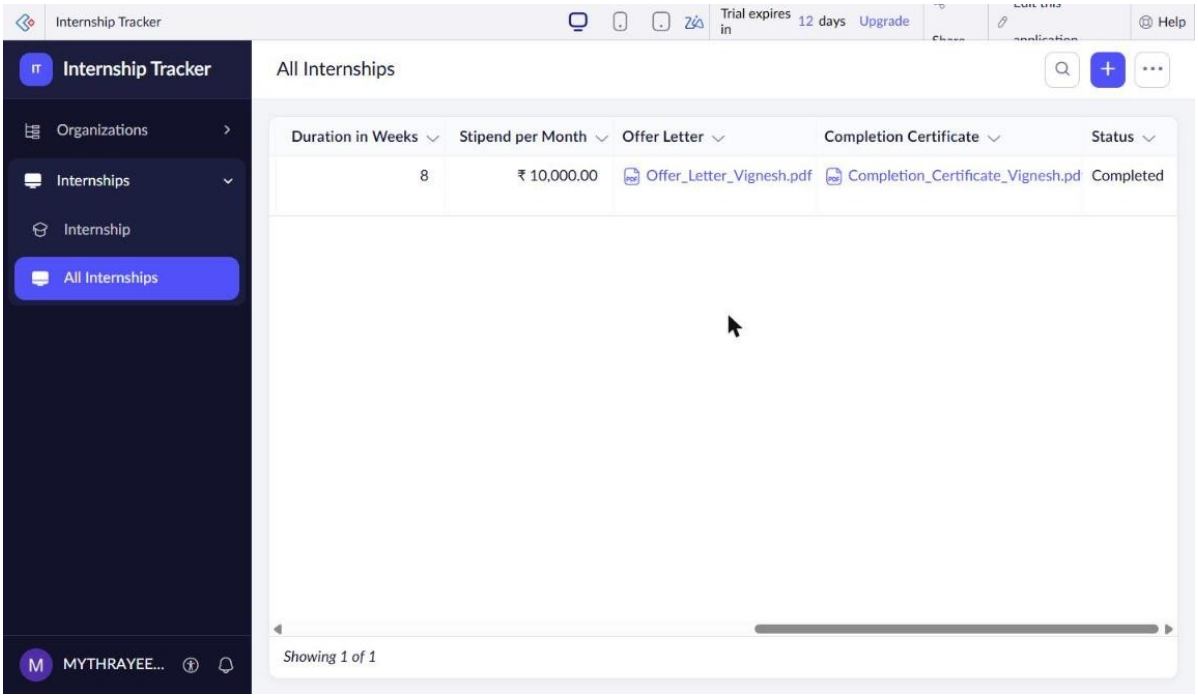

Fig. 15.2: Final internship record

Test cases:

Test	Expected output	Actual output	Status
Duration for 01-Jun-2026 to 31-Jul-2026	8 weeks	8 weeks	Pass
Certificate field	Appears only after choosing Completed	Hidden before, shown after Completed	Pass
End date before start date	Rejected	Rejected	Pass
Duration below 2 weeks	Rejected	Rejected	Pass
Valid test record	Saved	Saved	Pass

Result:

All expected outputs were obtained. The Internship Tracker application works as required.
